

In the News:

Day of Service at Khanya Lesedi Early Childhood Center

We are very grateful to our GTI partners who arranged a variety of meaningful opportunities for the TWA Fellows who toured Soweto and Alexandra Townships and partook of the school milieu at [LEAP 3 Maths & Science](#) and the Emshekantambo Secondary School.

As part of a pre-Mandela Day service experience, the TWA Fellows shopped and helped cook food for the Khanya Lesedi Early Childhood Center. They also donated food and toiletries.

Our visit was featured in the Soweto Urban Pimville, a local South African publication! Below is an excerpt- please see the full article here: [Local School Welcomes Educators from the USA](#)

“The school’s Deputy Principal, Vuyiswa Mdletye, expressed her joy about the opportunities offered by the Global Teacher Institute and Teach South Africa. ‘We’re very blessed and honoured to have them visit our school especially because it is their second time visiting. It’s really pleasing to see our learners go to other countries because they represent Emshekantambo Secondary School and that means they will put our school on the map.’”
